

Demist Blue Plastic Full Cone Nozzles

Demist Blue Plastic Full Cone Nozzles have the following features:

- The Demist Blue Plastic Full Cone Nozzles are large-flow solid cone nozzles which spray like rain.
- It is a heavy water jet nozzle with angle of 90°.
- The Demist Blue Plastic Full Cone Nozzles are compact in design, allowing liquid to reach maximum flow on a given size of pipe, and with a smooth passage design, minimizes nozzle clogging. This nozzle can be installed and updated on most piping systems.
- There are three thread sizes available 1/2" 3/4" and 1"

General Application

- Desulfurization of exhaust gas
- Dust cleaning
- Flue gas scrubbing
- Cooling
